EXAMINER'S COMMENT/REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art of record does not show nor suggest a method of cooling a plurality of heat generating components of an electronic system which, in combination, includes activating at least one variable speed blower and a plurality of valves to supply cooling fluid (i.e., air) to the plurality of heat generating components, sensing the temperature of each of the heat generating components and the pressure of the cooling fluid supply, determining whether the sensed temperature and pressure are within predetermined ranges, and varying the supply of the cooling fluid in response to the sensed temperature and the sensed pressure falling outside of the respective predetermined ranges by varying the blower speed, for example. The prior art of record also does not show nor suggest a computer readable storage medium on which is embedded one or more computer programs implementing the method described above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The drawings filed on October 31, 2003 are hereby approved.
3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ljiljana (Lil) V. Ciric whose telephone number is 571-272-4909. The examiner can normally be reached on Mondays through Fridays from 10:00 a.m. to 6:30 p.m.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gene Mancene, can be reached at 571-272-4930.
